

Guilherme Anguiano

Senior Frontend Developer

angui.dev · (13) 98184-3132 · guilherme.anguiano@outlook.com · Santos, SP · linkedin.com/in/guilherme-anguiano

PROFESSIONAL SUMMARY

Senior Frontend Developer with 10+ years of experience in web engineering, specialized in React and building scalable applications for the fintech market. At Onze, led the company's Design System and was responsible for developing and maintaining a private pension application, working closely with product and design teams to ensure visual consistency and technical excellence. Proven track record at large-scale companies like Red Ventures, with a consistent history of delivering high-performance interfaces and high-quality code.

TECHNICAL SKILLS

Core: React · JavaScript (ES6+) · TypeScript · HTML5 · CSS3

Styling & Design: Sass/SCSS · Stylus · Styled Components · Design Systems · Component Libraries · Figma · UX/UI

Tools & Practices: Git · GitHub · REST APIs · Node.js · Webpack · Vite · Agile/Scrum · Code Review · Responsive Design · Web Performance · Accessibility (a11y) · AI-assisted development

Previous Stack: PHP · AngularJS · Angular · jQuery · SQL Server · Bootstrap

PROFESSIONAL EXPERIENCE

Senior Frontend Developer · Onze

Jul 2022 – Feb 2026 · 3 yrs 8 mos

Private pension fintech, incubated by Red Ventures · São Paulo, SP

- Led the company's Design System, building and maintaining a React component library that standardized the product UI and significantly accelerated feature development cycles across the entire team.
- Developed and maintained the company's private pension application, implementing critical flows that were essential to its core functionality.
- Mastered complex pension industry business rules, becoming the technical reference for the product team on feature feasibility, architecture decisions, and requirements definition.
- Collaborated directly with designers to ensure visual fidelity between Figma prototypes and production, balancing aesthetic quality with performance and accessibility standards.
- Conducted code reviews and contributed to evolving the team's frontend engineering practices, including code quality standards, code organization, and component reusability strategies.

Frontend Developer · Red Ventures

Jul 2020 – Jul 2022 · 2 yrs 1 mo

Digital performance company · São Paulo, SP

- Developed and maintained high-performance interfaces for the company's digital products using React and modern JavaScript (ES6+), delivering features within agile development cycles.
- Collaborated with multidisciplinary product, design, and backend teams to deliver high-quality digital experiences, aligning technical and business needs.
- Implemented reusable and scalable components following WCAG accessibility, web performance, and responsive/mobile-first design best practices.

Junior Frontend Developer · Red Ventures

Sep 2019 – Jul 2020 · 11 mos

Digital performance company · São Paulo, SP

- Contributed to web interface development using React and JavaScript, participating in the complete feature development cycle — from planning through production deployment.
- Joined high-performance agile teams, developing cross-functional collaboration skills and absorbing software engineering best practices in a large-scale environment.

Systems Analyst · Speedy Officer do Brasil

2017 – 2019 · 2 yrs

Web development agency · Santos, SP

- Led the development of Futuritos (futuritos.com.br), a children's private pension platform incubated by InovaBRA (Bradesco), responsible for the complete web architecture and backoffice tools.
- Managed the development team: delegated tasks, planned projects, conducted requirements analysis, and designed layouts and technical specifications.
- Developed other products including the BuscaTaxi app, Speedy Revolution, and Multitabelas using JavaScript, PHP, HTML5, and CSS3.

Web Developer · Speedy Officer do Brasil

2012 – 2016 · 4 yrs

Web development agency · Santos, SP

- Developed and maintained the Speedy Revolution platform, a modular and customizable system delivering new on-demand modules according to client requirements.
- Worked with JavaScript, PHP, HTML5, and CSS3 to build and maintain medium-scale web solutions, creating layouts and contributing to interface design.

EDUCATION

B.S. in Computer Engineering

2012 – 2016

Universidade Santa Cecília · Santos, SP, Brazil

Technical Degree in Computer Science

2010 – 2011

ETEC Aristóteles Ferreira · Santos, SP, Brazil
